- I will need electricity (All Solar Powered)
- I will be bringing my own tent
- I need an extra table (\$8.00 per table)
- I need extra chairs (\$2.00 per chair)

Fax application to: (912) 236-3637

At Greenfest, there is no such thing as a trash can. You'll only find a Resource Recovery Station, a fully loaded recycling center complete with collection bins for all types of recyclable items, organic and compostable items, and the little waste that cannot be recycled. Each station features a trained volunteer who assists attendees and helps to ensure that there is no contamination between the bins.

Even the waste liquids from unfinished beverages will be treated as gray-water.

One of the most common waste items seen in event waste is the plastic water bottle. Though these bottles are fully recyclable and often infinitely so, they still represent a major part of recycle stream. So in an effort to reduce the amount of waste produced, Greenfest uses Water Hydration Stations. These stations provide fresh water, free to the public, to be dispensed in the **attendee's own cup or water bottle**. No Matter how hard we try to create a zero-waste event, there will always be some item—a Styrofoam cup or cellophane wrapper—that will have no other home but the landfill. Yet our exhibitors', decorators', staff and volunteers' and producers' commitment to striving for that zero-waste event keeps us pushing the envelope toward that 100% clean mark. **No Styrofoam** is allowed at Greenfest, if a food vendor please bring **compostable, recyclable** to go containers only. Greenfest will be solar powered. Driving emissions will be offset. **Ride your bike** and get a free gift certificate to a local restaurant!

I am a regular merchant at The Market at Trustees' Garden (\$10) I am a 501c3 (\$10 Donation)

Saturday May 9, 2009 (9am – 7pm) Set Up 8am
